

## CPD Courses

In 2017/18 we ran a large number of CPD courses for teachers focusing solely on the written paper. Feedback received post results is that they were an enormous help and played a large part in student success on component 2.

We are now offering members only CPD courses which will focus on the following:

- Discussion of 2018 marking and results on Component 2. There will be opportunity for you to bring any student papers/scripts that you have requested for in depth discussion.
- Scoring well in Section B of the paper. Looking at how to structure answers to maximise marks.
- Quick and successful delivery of Section A.
- Delivering the Anthology by focusing on important sections to maximise marks.
- Structuring 12 mark answers.

We will run several CPD days throughout 2018/2019 to ensure that you are able to attend on one of the dates. We will release dates in due course. Courses will be based in North, South, Midlands and the West Country.
